

I do not want any weakening of the "Do Not Call" law in NJ. I do not see why I should be subjected to unwanted telemarketing calls, calls that usually came around dinner time, and apparently many, many, other NJ residents agree with me, based on the numbers that have asked to have their names added to the "Do Not Call" list. You would be well served to remember that as a government agency, your primary concern should be the well-being of the people, not the wishes of business. Government should be "of the people, by the people, and for the people", and not a stooge for businesses who think we are here to be annoyed, blustered at, and used. Show some respect for the people who actually make up the state of NJ.
